Debit Notes -
Where can I find information about the charges?

Display Debit Notes & Cost Rates

Debit notes and the underlying cost rates can be viewed in the Debit Process area within the respective application:

- Cost Rates
- Display Debit Notes

The individual cases that have caused charges can also be viewed within the application under Display Debit Notes:

- **EDI Quality** (manual recorded delivery notes and errors within EDI data
- **Log. Complaints**

Manual recorded delivery notes, erroneous EDI data and completed log. Complaints in detail

1. Within Display Debit Notes , these can be viewed under All Costs as reference type **Manual Delivery/Transport**, **Consignment or REKLA**

2. By clicking on the document number, you will be automatically redirected to the respective case within the applications (View Manually Recorded Delivery Notes, Consignment Cockpit).

3. By clicking on the **Statement** (valid for man. rec. del.notes) you can display the statement process for this case.

For elements yet to be charged, you can display manual recorded delivery notes as follows:

1. Open the function "View Manually Recorded Delivery Notes" and restrict the search within the status description to "...will be charged" (5 options).

2. To display details of the causing delivery note, jump to the detailed view.
3. From the delivery note details, use the link to the statement to navigate to the statement process

Within the Consignment and Transport Cockpit, EDI errors must be continuously corrected.
