

DAIMLER TRUCK

Goods accompanying slip

As a paper document accompanying the EDI delivery note, the following options are available:

- **Goods accompanying slip according to VDA 4912.** For all plants of Daimler Truck AG, the submission of the Goods accompanying slip is mandatory.
- **Material label according to VDA 4902** must be attached to the goods.

Note: Delivery notes according to DIN 4991 must not be used!

Links to the relevant chapters in the EDI Manual:

- EDI Manual: [03.1 Delivery note and transport data ENU , Chapter 1.1](#)
- EDI Manual: [03.1 Delivery note and transport data ENU, Chapter 1.7.4](#)
- EDI Manual: [03.2 Goods accompanying slip ENU](#)

The EDI data and accompanying documents (accompanying delivery notes and goods tags) must **always** match the goods delivered.

All necessary documents and data must always correspond to the actual delivery scope and must be kept up to date accordingly.

Corrections to the EDI data can be made in the **EDI Quality [smartIBL]** application within the **Consignment Cockpit**.

[Edit \(New Version\)](#)

After submission, the data is resent to the respective Daimler Truck AG plant.

[Submit](#)

Using **Print Documents**, the updated Goods accompanying slip and the respective material labels are printed.
