### smartIBL – Our path into the future

**SmartIBL – Our path into the future**

**Challenges of the current system**

- Complex processes
- High maintenance effort
- No sustainable processes
- Inconsistent landscapes

**The future of inbound logistics will be smart**

- New basis for design and engineering
- Error reduction and process optimization
- Digital and automated processes
- User-friendly interfaces

IBL Landscape Transformation smartIBL 2025

### Change transactions in CoA

**Change transactions in CoA**

Transaction IBL		NEW - smartIBL	
COA	Search	Manage CoA	Overview of existing and creation of new CoA. View quantity updates.
COA	New	View Delivery Notes	Search for delivery notes and part numbers with goods receipt.
COA	Confirmation of arrival per part number	Schedule CoA	Job for automated creation of CoA.

### Overview of important process changes

**Overview of important process changes**

- Mail dispatch is no longer required**
  - CoAs will only be sent via email address of [etdaimlertruck.com](mailto:etdaimlertruck.com)
  - They are valid without a signature
- New App: Schedule CoA**
  - Option for automated creation of CoAs and their respective email dispatch at an interval of your choice
- Creation of CoAs**
  - CoAs will be directly accessible in the future
  - Quantity changes will be updated in existing CoAs and can be accessed independently
  - Basic CoAs can be created for customizable periods of up to 3 months

### Training opportunities

**Training opportunities**

Training materials will be directly available on the smartIBL platform from GoLive!

**Self-learning concept**

- Click guides
- Training videos
- Mousover-features within smartIBL

**View available training materials**

Available training materials can be viewed by clicking the symbol in the top right corner of each page

### System login & authorization

**System login & authorization**

**Step 1: Apply for new applications**

- Please apply the application **Confirmation of Arrival** via the Supplier Portal

**Step 2: Request Access**

- Enter the following values in the "Add more applications" function
  - All applications: Logistics

Manage CoA	› Overview of existing and creation of new CoA, View quantity updates
View Delivery Notes	› Search for delivery notes and part numbers with goods receipt
Schedule CoA	› Job for automated creation of CoA

New Function

# Overview of important process changes

## Mail dispatch is no longer required

- › CoAs will only be sent via email address of @daimlertruck.com
- › They are valid without a signature

## New App: Schedule CoA

- › Option for automated creation of CoAs and their respective email dispatch at an interval of your choice

## Creation of CoAs

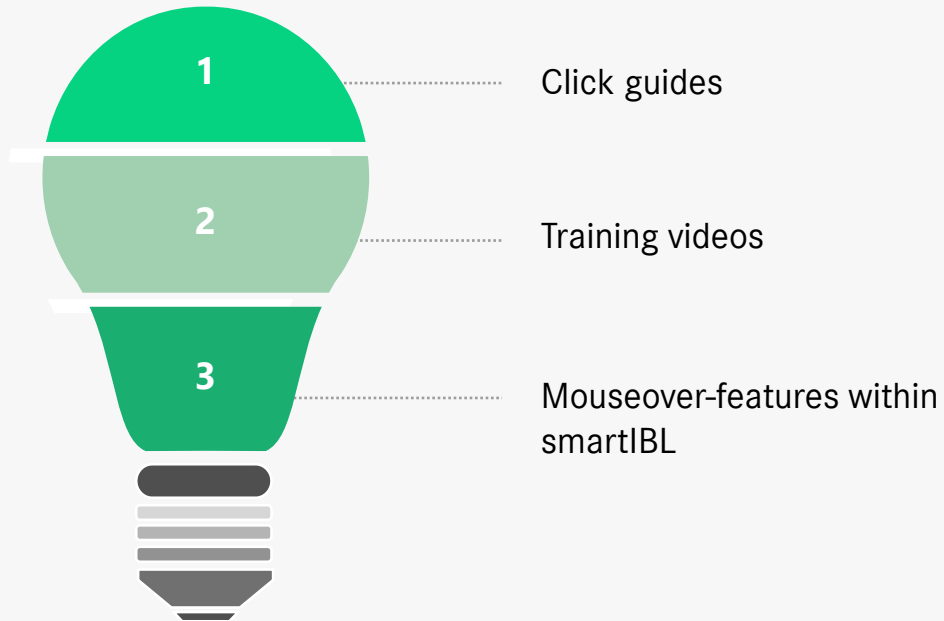

- › CoAs will be directly accessible in the future
- › Quantity changes will be updated in existing CoAs and can be accessed independently
- › Batch-CoAs can be created for customizable periods of up to 3 months

# Training opportunities

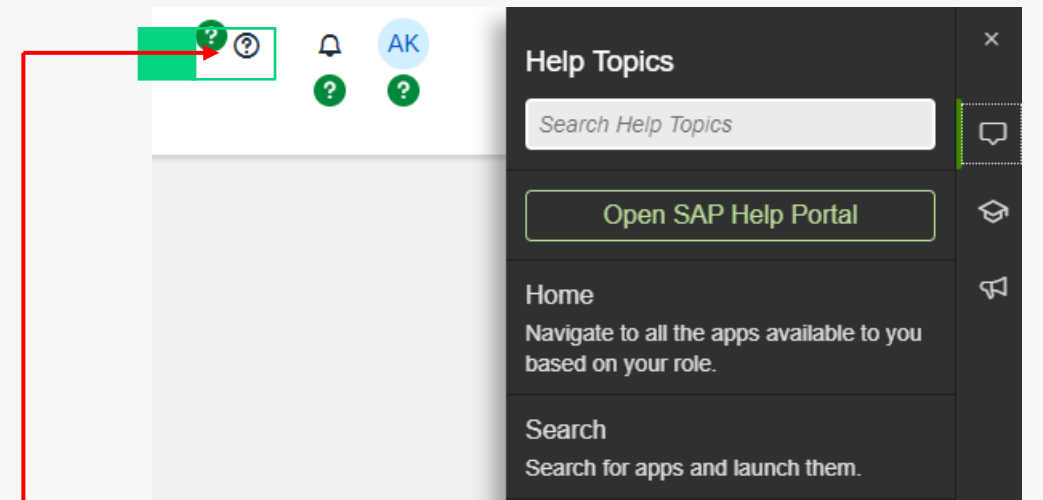

Training materials will be directly available on the smartIBL platform from GoLive!

## Self-learning concept

## View available training materials

**Available training materials** can be viewed by clicking the (?) symbol in the top right corner of each page

# System login & authorization

## Step 1

### Apply for new applications

- › Please apply the application **Confirmation of Arrival** via the Supplier Portal

The screenshot shows the 'Your applications' section of the Daimler Truck Supplier Portal. At the top, it says 'Daimler Truck Supplier Portal' and 'DAIMLER TRUCK'. Below that, there's a navigation bar with 'PROCUREMENT / COLLABORATION / SUSTAINABILITY / SUPPORT / APPLICATIONS' and 'My Profile'. The main content area has a 'Your applications' header. Below it, there are three cards: 'DocMaster', 'FUSO Supplier Web', and 'SWAN Landing Page'. A search bar and a '+ Apply for new applications' button are also visible.

## Step 2: Request Access

- › Enter the following values in the 'Add more applications' function
  - › All applications: **Logistics**
  - › Search for applications: **Confirmation of Arrival**
- › As a result, you will receive the role **SMARTIBL-SCOA-SUPPLIER-ROLE** and then click on 'Request Access'
- › Your responsible portal manager will receive the access request and have to approve it

The screenshot shows the 'Add more applications' dialog box. It has a search bar with 'LOGISTICS' selected and 'Confirmation of Arrival' entered. Below the search bar, there's a table with columns: APPLICATIONS, ALICE ROLE ID, and FUNCTIONAL AREA. The table has one row with 'Confirmation of Arrival', 'SMARTIBL-SCOA-SUPPLIER-ROLE', and 'Global'. A 'Request access' button is next to the row.

APPLICATIONS	ALICE ROLE ID	FUNCTIONAL AREA
Confirmation of Arrival	SMARTIBL-SCOA-SUPPLIER-ROLE	Global

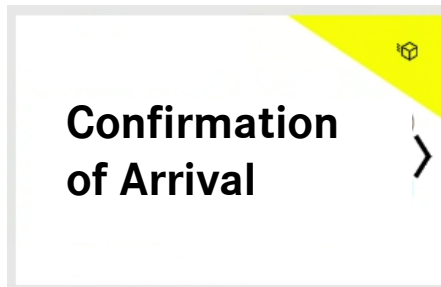

# System login & authorization

## Step 3

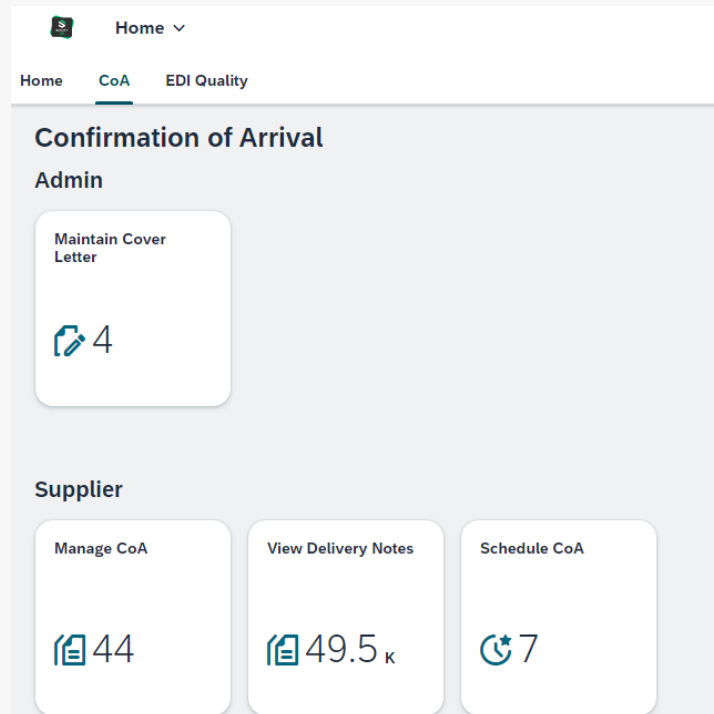

### Login to the system

- › After the approval of your request by your portal manager, you can now open the application **Confirmation of Arrival** via the Supplier Portal

- › **Attention:** You need a **separate user ID** for each supplier number with an index
- › **Attention:** the final approval of the roles by DTAG will only take place starting from February 11, 2025

**! Step 4: System access will only be possible starting from February 11, 2025 !**

# System login & authorization

## Further information on the Supplier Portal

- › On Topics such as:
  - › Support request
  - › Portalmanagers
  - › User ID

› **Link:** [Support | Daimler Truck Supplier Portal](#)

## Supplier Portal

The screenshot shows the Daimler Truck Supplier Portal interface. At the top, it displays 'Daimler Truck Supplier Portal' and 'DAIMLER TRUCK' with language options 'DE | EN'. Below this, there is a navigation bar with 'PROCUREMENT / COLLABORATION / SUSTAINABILITY / SUPPORT' and a 'Login' button. The main content area features six tiles: 'Support Request', 'Guides', 'Applications', 'MFA for confidential apps', 'Portal Managers', and 'User ID'. Each tile has a blue header with an icon representing the function.
