Additional terms of use for the "eAccept" function in the "proQ" application

Mercedes-Benz (hereinafter "MB")¹ provides its partners with the additional function "eAccept" via the Daimler Supplier Portal within the application proQ. The use of the "eAccept" function is subject to the following additional terms of use ("eAccept Terms of Use" or "these Terms of Use"), the Terms of Use of the Daimler Supplier Portal and the additional Terms of Use of the proQ application. In the event of any conflict between the Daimler Supplier Portal Terms of Use, the proQ Terms of Use and the eAccept Terms of Use, the latter shall prevail. For purposes of These Terms of Use, the term "Partner" shall mean any supplier or business partner of MB who uses proQ.

1. Scope of Application

These Terms of Use govern the use of the "eAccept" function by the Partner within the scope of its business relationship with MB.

2. Subject Matter of the Agreement

2.1 Utilizing the eAccept function, the Partner and MB can initiate and conclude legal transactions in proQ (e.g., submit contract offers, accept offers to conclude a contract, and confirm orders and price agreements).

2.2 Provided that such contracts are not subject to any formal statutory requirement, the Partner and MB intend to make all legally binding declarations of intent via the eAccept function.

2.3 The eAccept function does not currently use an electronic signature; however, even without the use of electronic signatures, the eAccept function ensures legally secure and enforceable documentation of commercial business transactions.

3. Access and Registration

3.1 In order to use the eAccept function in the proQ application, the Partner must agree to these eAccept Terms of Use. This consent is given when the Partner, through a legal or authorized representative, acknowledges and signs these "Additional Terms of Use for the eAccept function in the proQ application".

3.2 Only users who have been authorized by the Partner's portal manager for the role "User with eAccept" in the "proQ" application are authorized to use the eAccept function. These users use eAccept as authorized representatives of the Partner. The authorization of a user for the role "User with eAccept" also includes the use of the application proQ in the role "User".

3.3 MB intends to replace the "eDocs" application with the eAccept function. By confirming the eAccept Terms of Use, the Partner authorizes MB to replace the "eDocs" application with the eAccept function.
