Procurement Scorecard getting started – Value drivers

Supply

- Measure to evaluate delivery performance & consequences for production.

- **Definition:** Performance calculation as from plant source system provided.

Cost

Under construction

Quality

- Measure to evaluate quality performance & consequences.

- **Definition:** Reject ppm (0-KM) as global procurement KPI in order to increase the quality tracking (source: plant system).

Ratings are displayed in %

Procurement Scorecard getting started – Report hierarchy

| | | | | | | | | |
|-------------------------|----------------------|--------------|-------------------------|----------------------|--------------------|-------------------|--------------|----------------------|
| Cross Regional → | TT/G Overall | | | | | | | |
| Operating Unit → | Truck Europe | | Truck Powertrain | | Truck NAFTA | Truck Asia | | Bus |
| Region → | Europe | MBBras | Europe | DDC | DTNA | DICV | FUSO | EvoBus |
| Plant → | 0600 1521 etc. | 1540 etc. | 0690 0340 etc. | 5900 5901 etc. | 1641 etc. | 3651 etc. | 5751 etc. | 0260 0280 etc. |

- For the filter selection in PSC the hierarchy shown above was setup.
- You can search for a specific Operating Unit and Region performance.
- You can also check your performance on higher level.

Procurement Scorecard getting started – Add app and get the access granted by your Portal Manager

In order to access Procurement Scorecard App, you need to request the “Procurement Scorecard” role in the proQ application.

Add further Applications

All applications 11 items

proQ

| APPLICATION | GEMS ROLE ID | FUNCTIONAL AREA | RATING | ACTIONS |
|-------------|--|-----------------|-----------------|---------------------------|
| proQ | Select role PROQ user PROQ with eAccept Procurement Scorecard | Procurement | ★★★★★ (0 Votes) | Please select a GEMS role |
