

## Correct field length of the package number (from or to)

Origin from VDA 4913:  
**Record type 715 pos. 08**  
**Record type 715 pos. 09**

Field	Contents	Info
Supplier packaging number	XXXXXXXXX	
<b>Customer packaging number</b>	XXXXXXXXX	
Filling capacity (per packaging item)		
<b>Number of packaging items</b>	XXXXXXXXX	
Package number from	001435722	
Package number to	001435723	

## Field Content

- ✓ Number cannot be repeated within a year
- ✓ Format must be 9-digit, numeric
- ✓ This field is mandatory for specific processes

## Important

**If the package number is not 9 digits, please fill it with leading zeros.**

A 9-digit package number is a prerequisite for processing your data. The data is used for material tracking as well as for further processing at forwarders (incoming scan) and at Mercedes-Benz AG plants. **A non 9-digit number will result in an error. The check in DQM will still be activated in 2021, please pay attention to this requirement already today.** Details can be found in the EDI manual, chapter 4.
